Volunteers Needed!

The Boys Town Center for Behavioral Health is looking for highly motivated, dependable, and caring volunteers to work with students and families in the Boys Town Learning Academy. Interested students may apply to be either interventionists in the Academic Skills Clinic or content area tutors in the Tutoring Lab.

**Interventionists in the Academic Skills Clinic** will be trained in the delivery of academic interventions to outpatient children and families. Interventionists will work with staff psychologists to learn how to implement evidenced-based interventions for remediating academic skill deficits in reading, writing, spelling, and math. Interventionists will work one-on-one with children in grades K-6. The Academic Skills Clinic is offered Monday, Wednesday, and Thursday nights from 4:00 p.m. to 6:00 p.m. We ask that interested interventionists be available for a minimum of one hour on Monday, Wednesday, and Thursday. Volunteers will gain experiences implementing academic interventions, receiving supervision from Boys Town staff psychologists, and working directly with children and their families. Volunteers may also have the option of staying on as a paid employee.

**Tutors in the Tutoring Lab** will work with staff psychologists to identify a tutoring plan and support student learning. Tutors will work one-on-one with students in grades K-12 for one-hour sessions. We will consider academic skills, GPA, and comfort level when determining the grade level of students you will tutor. Tutoring services will be offered on Monday and Thursday nights from 4:00 p.m. to 6:00 p.m. We ask that interested tutors be available a minimum of two hours per week, have strong recommendations from at least two teachers, have a GPA of 3.0 or higher, and have an interest in working with children. Tutors will either earn community service hours or be paid hourly.

If you are interested in applying to volunteer as an interventionist or a tutor, please contact:
